PDK is your locally owned and operated connectivity specialists, dealing directly with the NBN™ Co. to provide businesses with cost-effective, tailored communication solutions.

Since 2012, the PDK Team have been connecting local businesses globally, through a dynamic range of VOIP services, business bundles, and high speed internet, customised to suit your business' needs.

With a locally based highly skilled team, let PDK manage your NBN™ transition and lead the way to a faster internet speed and lower costs for your business.

## WHY WAIT?

## THE NBN™ SWITCH IS SIMPLE

1. Choose NBN™ Plan
2. Select NBN™ Hardware Extras
3. Pick Phone Plan
4. Choose Phone Handset
5. Select Phone Extras

Let's talk

**(02) 5908 3290 | [pdk.net.au](http://pdk.net.au)**

## STEP 1: CHOOSE NBN™ PLAN

### Introducing Kinetix Business NBN™ Plans

Keep your business on the move with an advanced broadband service that delivers reliable, fast internet speed.

The Kinetix Business NBN™ plan is a broadband network service which uses the NBN™ network to deliver connectivity to the Network Boundary Point at your premises.

There are three plan types: Basic, Advantage and Edge, and all available on a no fixed term, or 24 month contract.

BASIC	ADVANTAGE	EDGE
<b>\$99.95</b> PER MONTH (Min. \$2,399 over 24 months)	<b>\$109.95</b> PER MONTH (Min. \$2,639 over 24 months)	<b>\$119.95</b> PER MONTH (Min. \$2,879 over 24 months)
<b>1000GB</b> data allowance	<b>1000GB</b> data allowance	<b>1000GB</b> data allowance
Speeds of up to 25Mbps/5Mbps	Speeds of up to 50Mbps/20Mbps	Speeds of up to 100Mbps/40Mbps

#### NO EXCESS USAGE CHARGES!

- An NBN™ ready modem is required for all types of NBN™ services. Your modem will need to be WiFi or VoIP enabled (along with a handset) if you want to connect wireless devices or use a VoIP service.
- Speed indicates the underlying NBN™ wholesales access connection speed. Due to a number of factors, speeds may vary and may be slower than the maximum NBN™ wholesale connection speed.
- There is no excess usage charge. When the included data quota is reached, traffic will be slowed to 8/1Mbps.
- A \$10 hardware delivery charge applies if a modem is supplied to you.
- An additional one off \$300 NBN™ New Development charge applies in your premises if identified as being within the site boundary of a new development.
- Critical Information Summary available at [pdk.net.au](http://pdk.net.au)

## STEP 2: SELECT NBN™ HARDWARE EXTRAS

### Invest in business performance and security

#### UPS

##### Uninterrupted power supply

A UPS provides business with the best power supply solution to help deal with problems encountered on overburdened power grids.

#### WiFi

##### High-performance WiFi

A cost-effective wireless access point is used to address access problems, data congestion and poor roaming experience.

Expand your office wireless cover, enable more users, achieve faster speeds, and improve user experience.

#### Business Router

##### Improve internet speed

A router is used to ensure high performance NBN™ connection.

Increase office productivity at a lower cost.

#### PoE

##### Power over ethernet switch

An energy saving ethernet switch that sends power to the telephone.

A green, easy-to-manage, easy-to-expand and cost-effective solution.

#### Firewall

##### Protection from digital threats

Business today is exposed to risks on the open internet, therefore, a reliable and secure network is critical.

This firewall is designed to stop cyber-criminals easily penetrating your network with viruses, malware and botnets.

#### Local installation service

All products are fully configured for self-installation OR a local PDK technician can configure and install your equipment on your premises.

## STEP 3: PICK PHONE PLAN

### Kinetix Business Phone Plans

Clear and reliable calling at competitive rates.

Your Kinetix Business Phone Plan allows you to make and receive calls, like you do using a regular phone but instead of your calls being delivered over a regular phone line they travel over your internet connection.

For each Kinetix business phone plan a fixed broadband internet service, a wired Ethernet port and a Kinetix phone handset is required.

**BEST  
VALUE!**

BASIC	ADVANTAGE	EDGE
<b>\$14.95</b> PER MONTH	<b>\$19.95</b> PER MONTH	<b>\$24.95</b> PER MONTH
\$0.10 per local/national call	Unlimited local/national calls	
\$0.25 per minute to mobiles	\$0.15 per minute to mobiles	Unlimited mobile calls
\$0.30 per call to 1300 numbers		
International from 5c		
Caller ID		
Voicemail to email		
Call waiting		
Keep existing numbers		
Optional hunt group	Hunt group	
Optional auto attendant	Auto attendant x 1	

- Consecutive number pools available at \$1.10 per number.
- Minimum 100kbps bandwidth required per phone plan.
- Critical information summary available at [pdk.net.au](http://pdk.net.au)

## STEP 4: CHOOSE PHONE HANDSET

### Kinetix New-Generation Phone Handsets

Innovative design & high performance.

Kinetix new-generation IP phones are an innovative design that delivers an intuitive, easy-to-use experience, enabling users to benefit from highly efficient communications.

#### Features:

- Thin design, ushering in a simple and stylish work style
- Crystal-clear, full-band high-definition (HD) audio performance, perfectly reproducing high-fidelity sound
- Ergonomic design, delivering a user-friendly experience
- Gigabit Ethernet (GE) ports and colour screen, your best choice for a cost-effective IP phone

## STEP 5: SELECT PHONE EXTRAS

### A Range of Add-On Modules Available

#### eSpace 7903X

**\$390.00** INC GST

A multi-functional IP phone expansion module. With a single eSpace 7903X, eSpace 7950 is able to provide additional 40 programmable buttons and optimise viewing through the 5-inch colour LCD screen.

- True-color screen: 5-inch, 480 x 800 pixels (high resolution), 16 million colours
- Programmable button: 20 programmable buttons with dual-colour (red and green) LEDs, signalling different line states of contacts and providing diverse functions, including speed dial, Busy Lamp Field (BLF), contact group, XML application, phone lock, phone sleep, call forward, pickup, group pickup, call park, and Do Not Disturb (DND)
- Page button: 2 page buttons with monochrome LEDs, with the second page button providing access to an additional 20 programmable buttons (for a total of 40 buttons)
- Function icon display: various function icons displayed, including phone lock, phone sleep, XML application, and contact group
- Profile picture display for contacts

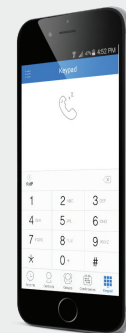

**SO WORTH IT!**

#### Kinetix Unified Communication Application

**\$7.95** PER MONTH

- Instant Messaging
- Presence Indicator
- File Transfer
- Audio Calls
- Enterprise Address Book
- Enterprise Bulletin
- Enterprise Management
- Multi Platform (Android/iOS/PC)
- Internal Video Calls

#### Fax Line Service

**\$14.95** PER MONTH

Rather than keeping a PTSN line just for your fax, PDK can create a line just for your fax machine!

Just \$0.10 per fax within Australia.

Grandstream HT702 **\$129** inc. gst.

#### Auto Attendant

**\$7.95** PER MONTH

The Auto Attendant feature is a virtual receptionist that provides the ability to route incoming calls to separate groups.

This means you can keep one number for your office and route calls to sales, support, accounts, installations or whatever function your business chooses.

#### Hunt Groups

**\$7.95** PER MONTH

Hunt groups give you the ability to route incoming calls received by one number (hunt number) to all the numbers in the group (hunt group).

For example, a prospective client calling in would call your office number and every phone in the hunt group would ring. This allows for simultaneous calling and when one person is on the phone the remainder of the office phones will ring.
